

Contents

Gutiérrez-Aguirre, M.A., A. Cervantes-Martínez and L. Coronado-Álvarez: Limnology of groundwater exposures with urban influence in Cozumel island, Mexico	493
Köster, D., R.I. Hall and J. Marty: Influence of floods on the food-web structure of two freshwater delta lakes as determined by carbon and nitrogen stable isotopes	497
Miracle, M.R., M. Sahuquillo and E. Vicente: Large branchiopods from freshwater temporary ponds of Eastern Spain	501
Lake, P.S., N. Bond and P. Reich: An appraisal of studies on the impacts of drought on aquatic ecosystems: knowledge gaps and future directions	506
Yanik, E.L. and V.H. Smith: Effects of food supply on susceptibility of <i>Culex</i> mosquitoes to the fungal biocontrol agent <i>Beauveria bassiana</i>	509
Jennings, E., C. Dalton, M. Olas, E. de Eyto, N. Allott, K. Bosch, S. Murnaghan and D. Taylor: Reconstruction of the recent past in a west of Ireland catchment	512
Duff, J.H., K.D. Carpenter, R.J. Avanzino and F.J. Triska: Seasonal phosphorus and nitrogen dynamics of open water during restoration of the Wood River Wetland, Klamath Falls, Oregon, USA	515
Sotomayor-Ramírez, D., G.A. Martínez, F. Pantoja-Agreda and C. Santos-Flores: Limnological assessment of two reservoirs in Puerto Rico	521
Borell Lövstedt, C.: Thermally-driven currents induced by shading from emergent reed vegetation	528
Fink, P.: Algal food quality affects growth of a benthic herbivore	531
Szalinska, E., A. Czaplicka-Kotas, D.A.L. Vignati, B.J.D. Ferrari and J. Dominik: Bioavailability of sedimentary chromium for chironomids in the upper Dunajec River (Southern Poland)	534
Yoshimura, M.: Relationship between stonefly assemblages and riparian environment: case study in mountain stream in Japan	537
Casimiro, S. and M.L. Fidalgo: Lethal and behavioural responses of the freshwater shrimp <i>Atyaephyra desmarestii</i> to chemical substances used in textile industry	541
Fidalgo, M.L.: A contribution to the incorporation of toxicity limitations in Portuguese regulations relative to textile discharges – preliminary results	546
Small, G.E., C.M. Pringle, F.J. Triska, J.H. Duff, A.P. Jackman, M. Hidalgo, A. Ramírez and M. Ardón: The dynamics of phosphorus retention during an eight-year P-addition in a Neotropical headwater stream	551
Fukushima, T., B. Matsushita, T. Kokaki and Y. Okanshi: Land use/cover change and its influence on water runoff in the watershed of Lake Kasumigaura, Japan	555
Molverson, Å., L. Bunting, A. Burgess and H. Bennion: The eutrophication of Lake Frøylandsvatn, South-Western Norway, as indicated by the sedimentary records	560
Løvstad, Ø.: A phosphorus-based biological classification system and threshold indicators	565
Roux, M.-J., M.R. Anderson and D. Planas: Integrating spatial patterns and processes in food web and environmental studies: from “who eats whom” and “who eats where” to “who eats whom and where”	569
Hadas, O., Taixing Wu, R. Agnihotri and M. Altabet: Nitrogen isotope composition of particulate organic matter (POM) in Lake Kinneret, Israel	573
Villar-Argaiz, M., J.M. Medina-Sánchez, F.J. Ballejos, J.A. Delgado and P. Carrillo: Is biochemical resource quality for herbivorous consumers enhanced by the manipulation of light and nutrient regimes?	577
Ahlgren, G. and G. Tilahun: Fatty acid quality of the basic food web in the Ethiopian lakes Awassa, Chamo and Ziway	581
Frisk T., Ä. Bilaletdin and H. Kaipainen: The effect of the alternative reception sites of the planned central wastewater treatment Finland	587
Beltrami, M.E., C. Cappelletti, F. Ciutti, L. Hoffmann and L. Ector: The diatom <i>Didymosphenia geminata</i> : distribution and mass occurrence in the Province of Trento (Northern Italy)	593

Kihira, M., K. Anbutsu, H. Azumi, H. Yoshida, O. Mitamura, S. Nakano, T. Katano, Y. Satoh, V. Drucker and M. Sugiyama: Horizontal distribution and nutritional status of picophytoplankton in Lake Baikal in summer	598
Lecerf, A., H. Hampel, H. Yu, J. Nijs, L. Hellings and M. Tackx: Decomposition of willow (<i>Salix triandra</i> L.) leaves in the Schelde estuary (Belgium)	603
Haury, J., J. Coudreuse, J. Debril, B. Ruaux and A. Jigorel: The role of invasive macrophytes in nitrogen and phosphorus dynamics in two gravel pits, Rennes, France	607
Watanabe, T., T. Nakamura, M. Nishimura, T. Matsunaka, M. Minami, T. Kakegawa, F.W. Nara and L. Zhu: Radiocarbon chronology of a sediment core from Lake Pumoyum Co in the southeastern Tibetan plateau	611
Conroy, J.D., D.A. Culver and R.T. Heath: Gloom and blooms: simulating phytoplankton growth moving out of a tributary into a large lake	615
Verburg, P., J.P. Antenucci and R.E. Hecky: Large scale overturning circulation against the direction of the wind in Lake Tanganyika	619
Bullejos, F.J., M. Villar-Argaiz, J.M. Medina-Sánchez, J.A. Delgado-Molina and P. Carrillo: Impact of UV radiation and nutrients on the elemental composition of zooplankton in a Mediterranean high mountain lake	623
Hofmann, H., A. Lorke and F. Peeters: Wave-induced variability of the underwater light climate in the littoral zone .	627
Jones, R.C.: Long term response of water quality to changes in nutrient loading at a mainstem site in the tidal freshwater Potomac River	633
Rao, Y.R.: Coastal physical processes in the Great Lakes	638
Hasegawa-Ishiguro, N. and K. Okubo: Glacial melt inflows into Lake Geneva	643
Poste, A.E., R.E. Hecky and D. Muir: Biomagnification of mercury in a West African crater lake (Lake Bosomtwe, Ghana)	647
Rosemond, A.D., W.F. Cross, J.L. Greenwood, V. Gulis, S.L. Eggert, K. Suberkropp, J.B. Wallace and S.E. Dye: Nitrogen versus phosphorus demand in a detritus-based headwater stream: what drives microbial to ecosystem response?	651
