Greenhouse Gas Emissions from natural Ecosystems and Reservoirs

Tremblay, A.: Introduction	821
Abe, D.S., C. Sidagis-Galli, T. Matsumura Tundisi, J.E.M. Tundisi, D.E. Grimberg, G.R. Medeiros, V. Teixeira-Silva and J.G. Tundisi: The effect of eutrophication on greenhouse gas emissions in three reservoirs of the Middle Tietê River, southeastern Brazil	822
Lima, I.B.T., A.C.P. Cimbleiris, E.A. Mazzi, E.M.L.M. Novo, J.P.H.B. Ometto, F.M. Ramos, R.R. Rosa and J.L. Stech: Sunlight effects on diel CO ₂ and CH ₄ emissions from a tropical reservoir	826
Sidagis Galli, C., D.S. Abe, J.G. Tundisi, V. Teixeira-Silva, G. R. Medeiros, P.R. Brum and A.C.P. Cimbleiris: Greenhouse gas concentrations and diffusive flux at the sediment-water interface from two reservoirs in Brazil	830
Dos Santos, M.A., L. Pinguelli Rosa, B. Matvienko, E. Oliveira dos Santos, C. H. Eça D´Almeida Rocha, E. Sikar, M. Bento Silva and A.M.P.B. Junior: Estimate of degassing greenhouse gas emissions of the turbined water at tropical hydroelectric reservoirs	834
Sikar, E., B. Matvienko, M. A. Santos, L. P. Rosa, M. B. Silva, E. O. Santos, C. H. E. D. Rocha and A. P. Bentes Jr.: Tropical reservoirs are bigger carbon sinks than soils	838
Rocha, C.H.E.D.A., M.A. dos Santos, B. Matvienko, L.P. Rosa, E.O. dos Santos, E. Sikar, M.B. Silva and A.M.P. Bentes Jr: Evaluation of dissolved carbon dioxide and methane at three tropical hydroelectric reservoirs	841
Santos, E.O., C. Silva, M.A. Santos, B. Matvienko, C.H.E.D.A. Rocha, L.P. Rosa, E. Sikar, M.B. Silva and A.M.P. Bentes Jr.: The importance of land use change analysis in the greenhouse gases emissions from hydroelectric reservoirs	845
Gregoire, A. and St. Descloux: Advantages and disadvantages of an aerating weir in a tropical zone	850
Bastien, J., A. Tremblay and A. Scanlon: CO ₂ and CH ₄ fluxes from Tasmanian aquatic systems, Australia	854
Bastien, J., A. Tremblay and L. LeDrew: Greenhouse gases fluxes from Smallwood Reservoir and natural water bodies in Labrador, Newfoundland, Canada	858
Pelletier, L., M. Garneau and A. Tremblay: CO ₂ and CH ₄ ecosystem exchange from peatlands: Eastmain-1 hydroelectric project, Quebec, Canada	862
Tremblay, A. and J. Bastien: Greenhouse gases fluxes from a new reservoir and natural water bodies in Québec, Canada	866
Ostrovsky, I.: Fish and methane bubbles in aquatic ecosystems: hydroacoustic separation and quantification	870
Casper, P., M. F. Albino and D. D. Adams: Diffusive fluxes of CH ₄ and CO ₂ across the water-air interface in the eutrophic lake Dagow, northeast Germany	874
Yagi, A., J. Okajima, N. Kai and M. Umemura: Seasonal changes of methane and organic acid in Lake Fukami-ike .	878
Simiyu, G.M. and D.D. Adams: Sediment and nutrient transport and groundwater sources in the Nzoia River watershed, western Kenya, East Africa	884
Adams D.D. and G.M. Simiyu: Greenhouse gas (methane and carbon dioxide) emissions from a tropical river in Kenya: the importance of anthropogenic factors on natural gas flux rates	887
<hr/>	
McNaught A.S. and A.M. Weber: Response of two <i>Bosmina longirostris</i> morphotypes to the cladoceran predator <i>Leptodora kindti</i>	891
Gross, E. M.: Impact of reoligotrophication in Lake Constance on nutrient content and defensive phenolic compounds in Eurasian watermilfoil	897
Wille, St. and R. Petersen: Temperature and water level dynamics of vernal pools in the Agate Desert, Oregon, U.S.A.	900
Mezek, T., M.T. Arts, E. Sverko and A.T. Fisk: Sample preparation methods for the analysis of poly-methylene interrupted fatty acids	903

Senga, Y., M. Hirota, M. Hirao, T. Fujii, Y. Seike, S. Nohara and H. Kunii: Nitrogen dynamics and N ₂ O emission in restored salt marsh, Lake Shinji, Japan	907
Huang, G., S. Sato and M. Nishimura: Dissolved oxygen variations in the tidal reach of the Sagami River	911
Beltrami, M.E., L. Ector, F. Ciutti, C. Cappelletti, L. Hoffmann and E. Rott: Longitudinal variations of benthic diatoms and water quality along a large river (Adige River) in Northern Italy	915
Delgado-Molina, J.A., J.M. Medina-Sánchez, M. Villar-Argaiz, F.J. Bullejos-Carrillo and P. Carrillo: Induced algal community changes by UV radiation and nutrient inputs: A long-term experimental study in Lake La Caldera (Sierra Nevada, Spain)	919
Bergström, A.-K.: Seasonal dynamics of bacteria and mixotrophic flagellates as related to input of allochthonous dissolved organic carbon	923
Chen, K.-N., C.-H. Bao, W.-P. Zhou and W.-M. Chen: Responses of zooplankton to ecological restoration in Wuli Bay of Lake Taihu, a subtropical shallow lake in China	929
Rusak, J.A., S. E. Jones, A.D. Kent, A.L. Shade and T.M. McMahon: Spatial synchrony in microbial community dynamics: testing among-year and lake patterns	936
Gondwe, M.J., S.J. Guildford and R.E. Hecky: Sandy shore benthic N ₂ -fixation in Lake Malawi, Africa	941
Stewart, K.M.: “Snapshots” of four benthic invertebrate groups in 41 lakes	945
Smith, H.A., J. Ejsmont-Karabin, T.M. Hess and R.L. Wallace: Paradox of planktonic rotifers: similar structure but unique trajectories in communities of the Great Masurian Lakes (Poland)	951
Jensen, O.P., P.M. Yurista, T.R. Hrabik and J.D. Stockwell: Densities and diel vertical migration of <i>Mysis relicta</i> in Lake Superior: a comparison of optical plankton counter and net-based approaches	957
Mitamura, O., N. Nakamoto, M. do Socorro Rodrigues Ibanez, J. Policarpo Costa Neto and R. Barbieri: Grain size distribution of particulate matter and sediment in extensive freshwater bodies in pre-Amazonian floodplain, Baixada Maranhense, Brazil	964
Morgan, E.L., D.B. George, N. Thirunavukkarasu and E.T. Ososanya: Using artificial intelligence to detect fish breathing stress in remote automated biosensing for coordinated watershed monitoring networks	971
J.A. Cherry, A.K. Ward and G.M. Ward: The dynamic nature of land-water interfaces: changes in structure and productivity along a water depth gradient in the Talladega Wetland Ecosystem	977
Cotner, J.B., J. Kenning and J.T. Scott: The microbial role in littoral zone biogeochemical processes: Why Wetzel was right	981
